- Support Digital Audio
- Small and simple design, just Plug and Play

### • Introduction:

The Vantec Micro USB to HDMI MHL Adapter is a quick and convenient way to instantly stream content that you see on your smart phone to your HDTV. It turns your smart phone into a home theatre streaming videos with 1080p HD content and digital audio. This adapter uses Mobile High-Definition Link (MHL) technology to display the HD content on your smart device to a HDTV for clearer view of the videos and pictures. You can also play games on your smart phone using the HDTV.
