• Introduction:

The Vantec 7 USB Port Smart Charger opens up the opportunity to connect multiple Portable Devices like Tablets or Smart Phones all together for charging. The Smart Controller in the Charger can simultaneously detect the connected Portable Devices and provide the best dedicated fast charging to the attached devices. This will save you time and consolidate your devices at one convenient place. This Charger is made with industrial grade aluminum casing and attached mounting bracket for easy installation. A Certified Power Adapter is included to ensure ample and stable power for all your 7 devices simultaneously.
